Birthday Party

A very lively birthday party was held at the home of Mrs. G. Eisner on Friday last, on the occasion of Master Arnold's birthday. Games and stories were enjoyed in the afternoon as well as some very clever piano selections by Master Arnold. The supper table was loaded down with good things, including hot dogs and a big birthday cake. Some 27 children were present and a lively time was had, which lasted from four till seven o'clock. Mrs. Eisner, Mrs. Taylor and Mrs. Fray were the hostesses.

Municipal District of Lamerton Meet

A regular meeting of the Council of the Municipal District of Lamerton was held on Saturday, May 12th, in the Municipal office at Alix.

The meeting came to order at 1:30 p.m. with all members present, Reeve Tallman presiding.

The minutes of the meeting of April 14th were read and adopted on motion of Deputy Reeve Crown.

The appointment of Medical Health officers was brought up and discussed, and on motion of Councillor Stevenson, Drs. McLennan and McNabb were re-appointed.

On motion of Deputy Reeve Crown the Municipality was divided into two areas for the purpose of public health. M. Yard be appointed weed inspector for 1928.

On motion of Stevenson a contract for cutting brush on the road running and south between the ranges of twenty-four and twenty-five was given to F. Smith for a sum of \$100.

A number of bills and pay-sheets were passed for payment on motion of Deputy Reeve Crown.

The application of Wing Wong of Haynes for a restaurant license was approved on motion of Councillor Shelburne. The application of Wing Wing of Tees was approved on motion of Deputy Reeve Crown.

Moved by Councillor Shelburne and carried that Mr. C. The meeting adjourned at 4 p.m. on Motion of Councillor Shelburne.

Attempt to Rob The Imperial Bank At Edberg

A very thrilling episode in the form of a bank robbery was enacted at Edberg, in the early hours of Saturday morning. But the manager, Mr. Cooke, proved himself one better when he frustrated their plans by firing a shot gun into their midst. A call was put in, and Messrs. Smathers, Earl Estill and Haggarty rushed to the scene where they blocked the road. One of the gang was captured on Sunday afternoon by Constable Lees of Bashaw, and another gave himself up Monday.

A service of the Grand Lodge of Alberta A.F. & A.M. was held in Alix, Sunday afternoon, Rev. Godard, Grand Chaplain, of Stettler conducting the service. A large number attended with a tea being given at the close.

Local Brevities

H. J. Snell, sight specialist, was a business visitor in town Thursday last.

The W. I. will meet on June 2nd at 3 p.m. Mrs. Parby will be present. Every boy cordially invited.

Preparations are going forward with regard to bringing in the Calgary power line. It is authentic that Mirror will have the power this fall.

An attendance of over 300 filled the Grand theatre to capacity last Thursday night, on the occasion of the annual Oddfellows ball. Bashaw and Alix being well represented as the Mirror folk.

Rev. R. G. Wood and Mr. and Mrs. J. V. Spence are attending the annual conference of the United Church, being held in the Central United church at Edmonton this week.

Mr. S. Hyslop purchased an Essex last week.

Rev. A. A. Lytle, secretary of the Bible Society spent Wednesday in Mirror, the guest of Rev. Wood at the parsonage.

N. G. Spence sold his Buick sedan to J. A. Mackie of Alix.

Pete Hutchison, C.N.R. roadmaster, stopped in town this week.

T. McFadden was taken to the hospital at Stettler last Friday, where he underwent a serious operation.

Joe Cabana was a visitor to Stettler this week.

Les Cooper was the victim of a collision on Thursday last, when his Ford sedan was badly wrecked in front by violent contact with a traveller going north.

Frank Gordon leaves this week for Stettler having completed his painting jobs here.

Work has commenced on the rearrangement of the Imperial hotel. Mr. Haggarty is having the rotunda where the beer parlor was, using the west side for the beer parlor, and is changing the stairs accordingly. This will entirely separate both parts, and be a great improvement.

H. A. McKenzie has been on the sick list, lately.

Mr. and Mrs. W. R. Stirling, accompanied by Mrs. G. Thomas arrived Monday from a trip to Edmonton.

Mr. and Mrs. Perault spent Sunday with Mr. and Mrs. H. A. McKenzie.

Captain Dancy will speak at Mirror on June 8th. Further announcements will be made later.

Mr. Trotter's store is receiving the finishing touches.

Born to Mr. and Mrs. Harold Holmes of Ripley, on Saturday May 19th, a daughter.

W. T. Holder was operated on at Calgary last week and is progressing favorably.

There will be special service at St. Monica's church for the children this Sunday at 3 a.m. Everybody invited.

Frank Cockrell of Alix was in town this week, his advertisement on the back page.

Hon. Vincent Massey Speaks On Peaceful Relations Between Canada And The United States

"The peaceful relations between Canada and the United States are founded on practical principles," said Hon. Vincent Massey, Canada's minister of the United States in a speech before the American Peace Society, delivered at Cleveland.

In conveying the greetings of Canada, Mr. Massey said that he happened to be the only representative of British America present, and he might be permitted to add to Canada's good wishes those of Newfoundland, the British West Indies and all the countries in America which owe allegiance to the British crown.

Canada and the United States, said Mr. Massey, had gone a long way towards a solution of the problem of peaceful neighborliness.

"We may point with some pride to a tradition of tolerance and common sense in our dealings with each other," he said. "It is true in our enthusiastic moments we refer to our peaceful border in unrealistic language, but underneath our rhetoric there is solid fact. No two nations can point to an achievement like that of the international joint commission, which for fifteen years and more has been settling intricate and delicate questions in connection with the waters on our boundary line. It is a matter for deep satisfaction that, to quote a recent learned authority, in a long list of cases there can be discovered no instances where dissatisfaction has arisen over the orders of this body. Its orders have never

been disobeyed, although it possesses no powers of police to enforce its orders. What a triumph in international cooperation there is in this fact, that in all its cases this commission has never differed along national lines, and only once it divided at all! We may well regard the work of this body as an impressive example as to how two neighboring nations, which are accustomed to trust each other, may deal with common problems."

This principle of arbitration in Canadian-American relations has been embodied in the policy of both countries since the Jay-Greenwich treaty of 1794, providing arbitration as a means of settling boundary disputes. Mr. Massey pointed out. The principle then set up had been successfully observed ever since.

The Canadian minister expressed great faith in the practicability of the various peace movements now going on throughout the world. In spite of the threats, the road to peace was open.

"More human beings are now bent on preventing war, more people are thinking in terms of peace, than ever before. Governments are directing their energies to this end as they never have done in the past. Do we hear more of war? The fact is that we are more conscious of the cruelty and futility of war than ever before, but there is the hope that the consciousness of a disease is the first step towards its diagnosis and cure."

WILL HAVE CHARGE OF WOMEN'S SPORTS

Addressing strictly to the policy that women's sports should be handled exclusively by women, the Canadian Olympic committee accepted the recommendation of the Women's Athletic Federation and appointed Miss Marie Parke, chairperson, and Miss Alex. Gith manager. They will have charge of the women track and field athletes on the trip to Australia. There may be some girl swimmers recommended by the Canadian Swimming Association, and if Canada will.

FINDS HAPPINESS

Malin Moe Schumacher, eight years old, a Polish orphan, who travelled 7,000 miles alone to find a new home. On her arrival at the Canadian National Railway station, Winnipeg, she was met by her new parents.

W. N. U. 1734

Want Air Port Chief

First Time Such a Position Has Been Advertised

Probably the first advertisement of their kind are in process of issue by W. F. Murray, secretary of the civil service commission, as a result of the decision of the Department of National Defence, to hold competitions for the positions of air harbor manager, at the St. Hubert airbase, near Montreal, and inspectors, civil aviation, at Ottawa. The air harbor manager will have charge under the superintendent of airways, of a public licensed air harbor, including the flying field or water surface, hangars, airways, ventilation, etc., at St. Hubert, will collect all operating fees, supervise aerial traffic and co-operate with customs officials at the port.

Qualifications for the post include a license as commercial pilot and air engineer, and wide knowledge of the different types of aircraft.

"Water, there is a lot in the soup," "Well, after all, a fly can't drink much," Juggled, Alby.

Seeing Sights The World Over

Possibly you have a friend who was a passenger on the round-the-world cruise of the Canadian Pacific Steamship "Empress of Australia." If so, you have already heard the stories of ports visited, and the strange sights witnessed. In clubs, homes, and lecture halls you will hear about where the passengers saw the largest Buddha in Japan, how the Whanpo River, China, looks in the moonlight with the queer craft sailing scurrying with unknown cargo and from various ports, while from the cabin comes the wailing of the Chinese flute.

Then there is the spectacle of the mongoose in conflict with a huge cobra, a battle royal in which the former is always the victor, usually through his habit of securing a good hold with his mouth and crushing the head of the snake. Another interesting thing is to see the Hindoo with

his flute charm a deadly poisonous snake, finally playing on the musical notes of the replete to such an extent that he gradually draws the snake to his side in accompaniment to the Oriental music. Photo shows a motor of the desert being carefully lowered by his attentive chauffeur. Incidentally the owner looks over the camel's teeth to see if any are in the stage where pulling is necessary. Inset gives a silhouette at sunset on the river Nile.

Greatest Aids To Agriculture

Industry In Canada Has Received Most Benefit From Non-Farmers Agriculture's greatest aid in Canada during the last 50 or 70 years has come from men who have never farmed. J. H. Evans, deputy minister of agriculture for Manitoba, told the Legislature recently.

"A doctor who had never farmed learned in 1860 that wheat rust had different spores, and if these could be destroyed the fungus would be eliminated," Mr. Evans said. Pathologists had been using that information as a basis for research ever since. Pasteur, the French chemist and scientist, had brought immense benefits through his "pasteurization process," evolved in 1870 to aid wine-makers whose products were spoiling. William Banders, a druggist, had hybridized many brands of wheat to select the best and produce the grade known as Marquis.

Mr. Evans asserted that it was not very encouraging to the farmers, after years and much money spent to grow better seed and better stock, to have to sell these products for a low price "dictated by the businessmen."

The Canadian Rocky Mountain constant geologically of the upturned edges of the strata underlying the Great Central Plains of North America.

Some men drop all of their money trying to pick up more.

Mineral Springs Of Canada

Spring Water With Curative Powers Occur In Many Parts Of Dominion

The production of mineral waters in Canada in 1927 amounted to 205,629 gallons, valued at \$14,036, and was derived from mineral springs located in Ontario and Quebec. Spring waters containing minerals in solution, or as they are usually termed, mineral waters, occur in many parts of the Dominion. Many of them are utilized commercially, both as potable waters and for bathing purposes. At several of the springs where the waters have curative properties, hotels and sanitariums are operated. Some of the thermal springs are utilized principally for mineral baths.

Shorthorn Cow With A Record. A registered Shorthorn cow in the herd of the University of Alberta, Edmonton, recently completed a 360 day test during which she produced 15,428 pounds of milk with an average test of 4.2 per cent, making a total of 664 pounds of butterfat. This record places her sixth highest in Canada in point of butterfat production for Shorthorn cows.

No young man can succeed if he is afraid to do a little more than he is paid for.

The notes to which the strings of a violin are tuned are G, D, A, and E.

Canadians Living In U. S. Will Erect Memorial At Ottawa As A Confederation Gift

A sketch of the May memorial to be erected in the Parliament Buildings at Ottawa, as a Confederation gift from Canadians residing in the United States, has just been published in New York. The sketch, submitted by Dr. H. T. Traut-McKenzie, of Philadelphia, and approved by the National Memorial committee, symbolizes the development of Canada.

Four figures occupy the immediate foreground. On the left is Canada enthroned, her right hand on a shield emblazoned with the arms of United Canada of today, her left outstretched to receive the offerings of her children. She wears a head dress with caribou antlers and the short chiton and girdle of Diana; a youthful girl, the figure, the youngest of the Nations.

The central figure is a small child, the Canadian of the future, staggering under the weight of the wheat sheaf he is bringing. Behind him and partly supporting him is a stalwart youth, the Canadian of the present, relieving his rifle and looking forward to Peace and Industry. Behind him a young woman kneels and releases his rifle with one hand and with the other pours out from a basket the fruits of the earth at Canada's feet.

The engineer is stepping down into the foreground, with a theodolite on his shoulder. At his heels come, in procession, the lumberman, with his axe, and the fisherman with his nets, established on both coasts before the land was settled. Farther back at the side is seen a group; a man with a hunter's rifle, and a woman and child, standing among the trees in front of the settler's cabin. On the opposite side an Iroquois Indian rides in the forest watching them.

The upright pine trunk forms a frame through which is seen the figure in his hand the relief of Jacques Cartier on the deck of his ship, on his sail up the St. Lawrence. Kneeling behind him a Jesuit priest upholds the cross; reverencing the relics and looking forward to the relief of settlement of Canada.

The relief of the figures becomes lower as the history recedes but the figures on the foreground stand out boldly, almost in the round. The symbol is a pedestal about three feet high on which the inscription will be carved.

There are approximately a million and a quarter men and women of Canadian birth resident in the United States. To give expression to their sentiments of pride in and devotion to the native land, and in honor of Ottawa was proposed. The sixtieth anniversary of Confederation, celebrated last year, provided a fitting opportunity to present it. It will be erected at a cost of \$30,000, the amount to be raised by popular subscription among Canadians residing in the United States.

Through the courtesy of the Canadian Government the most desirable site within a city was made available to the Memorial Committee and accepted. This location is a large park in the main corridor of the Parliament Buildings leading to the Hall of Fame and opposite to and balancing the Memorial group already erected there to the Nursing Sisters in the Great War.

Time was of course too short to consider the erection of the Memorial itself for unveiling at the Jubilee ceremonies in Ottawa on July 1, last. A temporary tablet was therefore made, placed within the panel the memorial will occupy and in the presence of His Excellency Viscount Willington, Governor-General of Canada, the Right Hon. W. L. Mackenzie King, Prime Minister, and a distinguished gathering, solemnly unveiled and formal presentation made by W. W. Colquhoun as chairman of the National Committee. The gift was gratefully accepted on behalf of the Canadian people by the Governor-General and the Prime Minister.

The Tablet reads: "In the sixtieth year of the Confederation of Canada and in commemoration of this event Canada who when the United States will cause a memorial to be erected here in token of their devotion to the country of their birth and as a proud tribute to the achievement of its foundation."

Truths Essential To Success

I find great pleasure in a truthful man. One can depend on what he says and learn from him. But no one pays any attention to a liar, or much respects him. I have never known a really successful man who was a liar. If you find a man who is a liar, you are engaged in real affairs successfully, that untruthfulness is a drag, like a suit of clothes when in swimming.

NEW CONFEDERATION BUILDING

Work on the new Confederation Building at Ottawa, of which the foundation stone was laid by Lord Willington on Confederation day last year, will be started this year. The building, which is to house government departments, will be of French chateau architecture, which will harmonize with the Chateau Laurier at the opposite end of Parliament Hill. The plan resembles a broad arrow, with a main wing of 250 feet on Wellington street being paying out \$400,000 annually in rents for government departments, many of which are now accommodated in old houses or shabby buildings.

Hudson Bay Possibilities

Development Of Northern Coun- try a Matter Of High Anticipation

The belief of Canadians in their north country has been steadily growing in recent years. What is commonly spoken of as the hinterland has seen an active development and there are visions now of that development extending down the Macdonald Valley towards the Arctic Circle, and around both sides of the Hudson Bay.

It is beginning to be recognized that the development of the country about Hudson Bay, and of the islands and waters of the Bay, is comparatively near. What appears to be valuable mineral discovery on both sides of the Bay, and the providing of ready access by means of the Hudson Bay Railway, will give a great impetus to the development of that whole northern region. In former years, it seemed very remote and very unlikely to have much to do with the active life of the Dominion. That the change is in prospect, and it may come rather quickly, besides the Hudson Bay Railway, the Ontario

Government is extending its railway up to James Bay, and it will be a matter of time until a railway is built north through Quebec up the east side of Hudson Bay.

Hon. Charles Dunning dwells on the possibilities of the Hudson Bay country in an article on the coming northern route through the Bay in a special number of the Montreal Herald. He refers to the minerals, timber, waterpower and fisheries, and mentions particularly the iron ore on the east side of the Bay that may be available for western manufacturers. He also notes the possibility of affecting the isolation of the Maritime Provinces by the development of an extensive trade between them and the West by this northern water route. What Canadians may expect from the development of the Hudson Bay country, he intimates, may be gathered from a consideration of the development of Northern Europe, where Petrograd, Stockholm and Oslo are all north of the latitude of Port Churchill, while Moscow is only a little south of it. In the Canadian northland beyond the tree belt there is a natural grazing ground for millions of caribou, reindeer and muskox, representing the production of an immense food supply.

In regard to the shipping route through the Bay, Mr. Dunning speaks of the advantage of sending our grain by an all-Canadian route, an incidental result of which will be that "it will take 100 per cent. Canadian on reaching its destination." As for the duration of the shipping season, he says that that has not yet been definitely ascertained but that "we do not permit the croaker to alarm us because we know what it is customary to accomplish in even a short season of intensive navigation of the Great Lakes when the crop begins to move."

The direct and indirect result of

the opening of the route are matters of high anticipation to the people of the West.—Montreal Free Press.

BUILT ARMORED BOATS FOR FOREIGN POWERS

Several Under Construction In England But Owners Unknown

High-speed armed motor boats are being built at London for an unnamed foreign power, according to the spokesman for John Thornycroft Co., the builders.

Two other boats of this type which have been completed for the Dutch naval flag, are an improved development of the famous coastal motor boats first used in the war.

The boats are 55 feet long and do not weigh over 15 tons loaded. They are powered by two 375 horsepower engines and are capable of 25 knots.

Their beam is 11 feet, and the draught, when stationary, about three feet three inches.

When underway, a single-step hydroplane lifts the bow clear of the water and they do not draw more than a few inches. Because of their high speed and shallow draught they are particularly adapted for crossing mine fields.

Two torpedoes, fitted with a special releasing gear for dropping them astern when the boat is travelling at full speed, are the chief features of their armaments. They also carry Lewis guns and depth charges. The latest addition is the installation of a smoke-screen-forming apparatus.

Foreign navies are said to have been giving this type of craft particular attention lately. Italy is reported to maintain 132 of them on the Adriatic, and the Soviet Government has 25. Though France and Japan have only two apiece, they are both rapidly related to be building more.

A crew of three men is required to operate these boats.

REMARKABLE SERIES OF SUBTERRANEAN CAVES

Found In Selkirk Range Of Mountains In B.C.

Near the summit of the Selkirk Range of mountains in British Columbia is one of the most remarkable series of subterranean passages found in the world. The caves are the Nidmud Caves in the Glacier National park, one of the scenic areas administered by the National Parks of Canada, Department of the Interior.

About four and one-half miles west of Glacier station the Cougar Creek valley opens to the north. This is a very beautiful alpine valley opening at its head into one of these high hanging snow-covered mountains to a glacier, so often found in this part of the mountains.

To the north Mount Hargrave, Catamount peak and Mount Urean Major, and to the west and south Cougar Mountain lie in the head of the valley. All of these peaks are glacier-hung and send down streams which trickle to form the little alpine river known as Cougar Creek. Soon a stream of considerable size, it comes cascading down the valley through meadows filled with alpine flowers; but suddenly it is snatched down into the bowels of the mountains. About 450 feet farther on it reappears, flows for a little in the light of day only to disappear again into subterranean darkness.

Three times in the course of a mile it is caught down in this way and then the waters disappear finally by a fourth underground channel. Word, rumbling noises like low thunder and the sound of rushing waters which may be heard below give rise to the Indian name "Nidmud" which means "spirit's noises."—Natural Resources.

Expansion Of B.C. Industry

The expansion in industry in British Columbia is disclosed by the annual report of the Workmen's Compensation Board, which shows that the 1927 payroll, when completely audited, will total approximately \$175,000,000, or nearly 50 per cent. higher than in 1921. The number of employing firms increased in the same time from 6,392 to 8,243. Of those operating in 1927, no fewer than 1,566 were employing labor for the first time.

Spring Bull Sale

The spring bull sale, an annual event in Calgary, since 1901, broke all records for prices. Approximately 400 bulls were sold at an average price of nearly \$900. The champion Hereford sold for \$1,125.

Don't believe all a man says about his neighbors, nor half he says about himself.

Experience of more than thirty years proves that aluminum is the only completely satisfactory material in which to pack tea. Red Rose tea is put up only in aluminum, and a "money-back" guarantee goes with every package.

Says Sharks Seldom

Bite Human Beings

Less Dangerous Than Automobiles

Says Director Of Tropical

Research

Sharks seldom bite human beings, and as a matter of fact, are less dangerous than automobiles, William Beebe, director of tropical research for the New York Zoological Society, told the students at Sparganore College, Pennsylvania, in a lecture the other night.

Mr. Beebe said that after careful research he had found only eight authenticated cases of sharks injuring human beings.

The naturalist has associated with sharks on terms of unusual intimacy, for he came in contact with more than 400 of them last year while, clad in a bathing suit and a diving helmet, he explored their haunts, he took motion pictures under Hawaiian waters. He showed the pictures during the lecture.

Mr. Beebe plans another expedition when he will enter a brass diver cylinder equipped with apparatus to manufacture oxygen and attempt to descend a mile under water.

MANY MOTHERS

RECOMMEND THEM

Baby's Own Tablets Are Fine

For Nervous, Sleepless

Children

From Canada the name of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant, tiny tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are very reliable," said the mother of a child who tried the tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets for some time before I heard of them. I am now regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable resource."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box. By The Canadian Medicine Co., Brockville, Ont.

Joe Flier Was Ambitious

Not satisfied with his first record for night flying, Captain Tokio Kato, of the Japan aviation school at Tokyo, immediately flew again and established a new record. He hopped off at 5:30 a.m. in the evening and broke by 30 minutes his previous record of six hours in the night air. He immediately flew again and remained up until 3:30 a.m. in the morning, setting his previous record of the flight by three hours. Most of his flying was in dense fog.

Could Hardly Live For Ashman, writes one man who after years of suffering has found relief through Dr. D. K. Kellogg's Asthma Remedy. "Now he knows how restless has been his suffering. This catchless remedy gives you help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler."

There are people so constituted that they never speak well of a man till he is dead.

Lave and potatoes must be skin—they both spring from the eyes.

UICURA HEALS LARGE PIMPLES

Caused Itching, Burning, Also Disfigurement.

"My complexion was completely ruined by pimples which varied in size. Some were large, hard and red, while others were just red, raw, itched. They caused an itching, burning sensation, also disfigurement."

"After using several of remedies for over two years, with little result, I sent for a free sample of Uicura Soap and Ointment. I was so pleased with the results that I purchased more and after using two cakes of Uicura Soap and one cake of Uicura Ointment my complexion was completely healed." (Signed) Mrs. M. M. M., 20 Bellevue Ave., Toronto, Ont.

Use Uicura to clear your skin. Uicura Soap and Ointment. Price 25c. Uicura Soap and Ointment. Price 25c. Uicura Soap and Ointment. Price 25c.

Teeth and Health

Good Food For Canadian Dental Hygiene Council and Published By The Canadian Dental Society

WHY "NEW TEETH FOR OLD?"

Perhaps you were wondering why little Henry had to lose his "baby" teeth and have them replaced with new ones.

Why, you asked yourself, do they not remain permanently and develop in size during the growing years just as do the ears and eyes?

"Because they become decayed," you say, but not necessarily so since tooth decay is a disease and is therefore abnormal and preventable; and, for that matter, when you lose a tooth through decay at six and twelve, you need not replace it.

But consider: You have seen a little sapling grow to be a big tree—a large oak from little acorns grown—but did you ever hear tell of a small sapling growing to become a large tree? Not likely so, and for obvious reasons: For, as you know, the tree is of organic matter, while the stone is of inorganic.

Now the teeth, being composed largely of inorganic matter, especially the enamel covering, which is almost wholly so like the pebble, cannot at all change in form, and so grow larger once it is fully developed.

Obviously too, Henry's little jaw has no room for the larger teeth that he so much needs when he is fully grown. So unless the potatoes and "from little ones do big ones grow" we have no "new teeth for old."

These baby teeth then serve temporarily for mastication until the masticatory jaw bones are sufficiently developed to accommodate the permanent teeth of adult life. They are mother Nature's expedient too, if given half a chance.

Little Helps For This Week

"Inasmuch as ye did not to me of the least of these, ye did it not to me."—Matthew, xiii, 45.

Living, thou dost not live.

If winter is the spring run dry.

What Heaven has lent thee will thou give.

Dying, thou shalt not die.

He promised even so.

"The life I give repeat."

Behold, the tears that soiled thy sister's eyes.

Have washed thy Master's feet."

—Oliver Wendell Holmes.

The final test of religion at that hour will be how much it has changed the common charities of life. What we have not done by duty of omission—we are judged. It could not be otherwise. For the withholding of life is the negation of the spirit of Christ, the proof that we never knew Him, that for us He lived in vain.

—Henry Drummond.

No matter how deep-rooted the corn may be, it must yield to Holling's Corn Remedy if used as directed.

Recipes For This Week

(By Betty Barclay)

CREAM OF ASPARAGUS SOUP

Wash each stalk of asparagus carefully with a vegetable brush to remove all dirt. Then cut in small pieces (using all but the very tough parts). Cook, covered, until the asparagus is tender, in enough water to cover. Add salt to taste just before the asparagus is done. Allow two cups cooked asparagus and cooking water to 2 cups medium cream sauce (2 cups milk, 4 tablespoons flour, 4 tablespoons butter). Season and serve hot.

Note: The less tender part may be cooked longer and put through a sieve. If desired, the soup may be used for salad.

FRUIT BLESS

2-3 cup sugar.

1-2 cup water.

2 egg yolks.

4 tablespoons lemon juice.

Red color paste.

3 cups fruit.

Boil sugar and water five minutes. Pour over egg yolks, cook over hot water until thick, stirring constantly. Add lemon juice and red color paste and chill. Pour over fruit, using peaches, oranges, red cherries and strawberries cut in pieces. Serve very cold. Serve 6.

Enlivening Your Sympathy

Counsel for the victim of a motorist's accident: "Gentlemen of the jury, the driver of the car states he was going only four miles an hour. Think of it! Think of the agony of my client, the victim, as the car drove over his body at four miles an hour!"

"I see you are getting all the girls of the town."

"Yes, but the worst of it is I have to keep their husbands on their feet."

Neuritis succumbs to Mink's Liniment.

THERE is nothing quite equal to Aspirin for all sorts of aches and pains, but be sure it is Aspirin. The name Bayer should appear on every tablet. Bayer is genuine, and the word genuine is red-ink on every box. You can't go wrong if you will just look at the box when you buy it!

HERCULES

PERMANENT BUILDING PAPER

MR. THINKER—

here's your health

Most of your clients are thinkers.

Hercules will improve them.

Hercules—in three grades, x, xx, xxx—is tested and proven

wind proof and damp proof.

Little thought will show them that this is all a building paper should be.

And above all, by these very qualities, Hercules becomes the protection of the occupants of any home—their health.

A sample of Hercules is yours for the asking.

Why Firestone

Tires Give Most Miles Per Dollar

The greatest enemy to a tire is not the harsh grain of city streets or rough roads, but heat which is created inside the tire by internal friction. Heat not only weakens the fabric but also softens the rubber, causing blowouts and tire failure.

The above illustration shows a single cord of a Firestone tire, rough, unmodified and unbalanced into fifteen smaller cords composed of manila, cotton and rubber.

By means of the exclusive Firestone Gum-Chopping process, every Firestone tire is modified and unbalanced into fifteen smaller cords composed of manila, cotton and rubber, which prevents internal heat and friction.

Your local Firestone Dealer gives you the better service that goes with these better tires. See him first.

MUCH DEBATE OVER REVISED PRAYER BOOK

London.—Debate on the new revised prayer book policy will not begin in the House of Commons before the end of June, but controversy over the changes is raging.

The prayer book measure passed the first preliminary when the ecclesiastical committee of both houses voted 20 to 3 to allow it to proceed. The legislative committee must now approve it before it is submitted to the House.

The principal contenders in the controversy, so far, are Sir William Joynson-Hicks, Home Secretary, who opposes the revision, and the Right Rev. Arthur Penty, Winchester, bishop of London, who supports it.

The bishop precipitated the argument by circulating London members of Parliament, urging them to support the measure. The Home Secretary announced that passage of the measure would be for more grievances regarded throughout the country than its rejection would be.

Some Conservative Members of Parliament questioned the propriety of the Home Secretary's action in identifying himself so prominently with the opposition since he was a cabinet minister.

The bishop, in his rejoinder, asked if the opponents of the measure were trying to drive the church out of the Church of England. "No one," he said, "wants to drive out those who are ultra-Protestant in their doctrine. Cannot the people on your side be generous enough not only to keep within the Church of England, but to be happy in the Church of England time to time work and devotion we owe so much?"

"Your present policy, if successful, can only lead to the disunion of the Church of England, and this, I feel sure, no one would deplore more than yourself."

Discuss Exchange Of Lines

Co-operation Between Phone and Telegraph Service Possible in Alberta

Edmonton.—Ways and means for working out an exchange of facilities between the government telephone system and the telegraph companies are at present under consideration and a conference in connection with the matter was held between W. D. Robb, vice-president of the Canadian National Railways, and R. B. Baxter, Deputy Minister of Telephones.

Mr. Robb is referring the question at this opened to the head office of the Canadian National Railway Telegraphs and it is likely that a workable agreement will be reached.

Under the proposed plan the wires of the provincial telephone system will be made use of by the telegraph company in certain parts of the province for the transmission of telegraphic messages, while the province will use telegraph poles for the exchange of wires in other places by way of exchange. A similar arrangement in some parts of the province is already in operation between the province and the Canadian Pacific Railway telegraphs.

Exports Cut In April

Imports Were Higher and Income Tax Revenue Increased

Ottawa.—Canadian exports in April were lower in volume than a year ago, while imports were higher. Revenue from customs and excise were lower by nearly a million dollars in April last than in April, 1927. Revenue from income tax was nearly two million dollars more last month than in April a year ago, according to the monthly statement issued by the Department of National Revenue.

To Study B.C. System
Winipeg.—Major C. K. Newcombe, chairman of the women's compensation board which will handle the administration of old age pensions in Manitoba, will leave for Vancouver to study methods used by the coast provinces in handling the pension system. To date, 1,500 persons have filed applications for pensions in Manitoba, and this number is expected to be doubled shortly.

Sending Plane To States
Oslo.—The plane in which Captain George H. Wilkins and Carl H. Rasmussen flew from Alaska to Spitzbergen, has left Tromsø aboard a ship for Bergen. It will eventually be sent to America on a Norwegian liner.

W. N. U. 1734

Might Make Separate Pact

British Dominions Could Treat Directly With Washington

Washington.—The possibility that the British Dominions may make separate treaties with Washington, to outlay war is being discussed here.

Secretary of State Kellogg, whose proposals for treaties between the dominions have been discussed here, has been tentatively approved by British, said that he had no official intimation from London that any reservations would be demanded as indicated in news dispatches. He agreed that if any difference of opinion existed as to the exact basis on which Britain would negotiate with Washington, they probably were between Great Britain and her Dominions. He had been informed that London was taking up the whole question with the Dominions before replying to the U.S. Secretary of State's overtures.

Asked if the Dominions would have separate treaties, Secretary Kellogg said that was a matter for the Dominions themselves to decide, in consultation with the British government. In a general way the opinion expressed was that it would not be inconsistent with the policy of Canada in recent years if Ottawa elected to deal directly with Washington when it comes to declaration of policy on the arbitration of disputes and the outlawing of war.

Salary Increase For Judges Recommended

House Will Have To Approve Report Of Committee

Ottawa.—An increase in salary to Canadian judges has been approved by the special parliamentary committee. The committee's report will, it is stated, recommend an increase of \$2,000 to county court judges; the same amount to provincial court judges and \$3,000 increase for judges of the supreme court of Canada. The committee held its sessions in camera. It is understood that the report was only adopted on the casting vote of the chairman.

The committee's recommendation will have to receive the approval of the House.

An increase in salary of \$2,000 per annum is also recommended for judges of the exchequer court of Canada. The conclusion reached by the committee was that the remuneration paid to judges in Canada was inadequate and should be increased.

Willington Opens

Institute For Blind

New Building Provides Treatment For Nightblines In West

Winipeg.—The opening of the new building of the Canadian National Institute for the Blind, at Winnipeg, will be the means of not only comforting and supporting hundreds of thousands of blind people, but of the sight of at least half of them in Saskatchewan and Manitoba whose vision would otherwise be doomed.

This year the first statement of successive speakers representative of the institute when His Excellency Viscount Willington, governor-general of Canada, officially declared the new building open.

Amendment Defeated

Anti-Dumping Move Lost By Large Majority In House

Ottawa.—A Conservative anti-dumping amendment to supply was defeated in the House by a vote of 110 to 60. The amendment was moved by R. K. Anderson (Conservative, Halifax), and was that the government should take necessary action to effectively to control the importation into Canada of national products of a class or kind produced in Canada, the importer of which is liable to the detriment of the Canadian producers. A. W. Neill (Independent, Comox-Alberta), voted with the Conservatives, while the Progressives and U.F.A. voted with the government.

Explorer Reported Safe
Berlin, Germany.—Reports received here from North, Northern India, says the German explorer, Wilhelm Filchner, the British missionary, Mt. Wilson, and the American missionary, Playfair, arrived safely there. Filchner, in 1920, had been reported murdered together with several members of his Tibetan expedition.

May Be Envoys To Canada
Washington.—It is rumored here in diplomatic circles that Setsumu Kawada, minister to the Japanese embassy here, will be the first Japanese minister to Ottawa. The Japanese embassy declines to comment on the rumor.

Farm Workers Scarce

Demand In Northern Alberta Exceeds Supply Is Report

Winipeg.—The influx of immigrants this season has been well covered, and in northern Alberta there is scarcely enough farm help to meet the demand, according to J. S. McGowan, western manager of the colonization department of the Canadian National railways who returned here from a tour of the west.

He estimated that well over a million acres of new land will be cleared and brought under the plow this year in northern Alberta and northern Saskatchewan.

New immigrants, he said, were being used extensively in this work.

No Opposition From Britain

But Chinese Troops Must Not Enter Legation At Peking

London.—The British government has no intention to offer any opposition to the advance of the Chinese Nationalist army on Peking. Lloyd Lockhart-Lampson, under secretary for foreign affairs told the House of Commons.

Mr. Lockhart-Lampson said the government's only care was to see that these troops did not enter the legation quarters.

ADVOCATE PLAN OF INSURANCE FOR UNEMPLOYED

Ottawa.—The House of Commons committee on industrial and international relations endorsed the principle of unemployment insurance based on compulsory contributions by the state, the employers and the employee in its report tabled in the House.

The report states that the necessity for providing some method of unemployment insurance, "will inevitably have to be dealt with before long as a solution in part, of the industrial problems of the present day."

The report indicates that the success of any plan of unemployment insurance depends upon several of the provinces being willing to act simultaneously.

It is of the opinion that the matter should be referred to the provinces to find out the extent to which they will be willing to adopt legislation respecting unemployment insurance and to what extent they will be willing to go.

The committee expressed difficulty in arriving at a proposed cost of unemployment insurance because there was no definite method of ascertaining unemployment at any given point for any length of time.

The committee recommended: "That the government immediately devise some means whereby the measure of unemployment over a period of a year could be reasonably calculated."

The committee also recommends that the government secure from Great Britain advice on the subject and that the subject be dealt with further by the committee at the next session of parliament.

Formed Permanent Organization

Defendant In Currie Action Claims New Evidence Discovered

Toronto.—Appeals from the verdict of the special jury at the Colborne Court last month regarding Sir Arthur Currie, commander of the Canadian corps in France, 3000 damages in his libel action against W. T. Preston and F. W. Wilson, of Port Hope, were filed recently. Mr. Preston and Mr. Wilson were not accompanied by counsel when they visited Osgoode Hall to file the appeal.

One of the chief grounds of Mr. Preston's appeal is contained in a statement that new evidence has been discovered. He claims that an order was issued to the respective units of the Canadian corps about 4:30 p.m., November 10, 1918, that operations would be concluded and hostilities cease at 11 o'clock on the morning of November 11.

Other grounds include the assertion that the judge mis-directed and mis-instructed the jury, that certain evidence was erroneously excluded, and that the judgment was contrary to the evidence.

Mr. Preston and Mr. Wilson filed separate notices of appeal.

Ask Higher Tariff On Dairy Products

Findings Of U.S. Commission Not Yet Submitted To President

Washington.—The tariff commission's recommendation on milk and products of the Canadian conference on social work held in Montreal, P. Q., to the success of this first conference a permanent organization was formed with Dr. H. H. Hinks at its head.

Dr. C. M. Hinks, medical director of the Canadian National Committee for Mental Hygiene, was elected president of the Canadian conference on social work held in Montreal, P. Q., to the success of this first conference a permanent organization was formed with Dr. H. H. Hinks at its head.

The farmers' co-operatives, who claim to represent 981,000 farmers in this country, asked for upward revision of the tariff on practically all products of the farm, except grain or other already have a prohibitive tariff in most cases they ask, in their resolution addressed to Congress, about 100 per cent. increase in the existing duties.

Discusses Antarctic Plans

Wilkins Hopes To Locate Suitable Base For Meteorological Station, Tromsø, Norway

Wilkins, commenting on Spitzbergen's place in the future of Arctic airways, said: "It likely will be the half-way house between China and China."

Wilkins said, in discussing his plan for an Antarctic flight, that he hoped to make an aerial camera survey of the coast of the Ross Sea to Graham's Land, for the purpose of locating a suitable base for a meteorological station. Such a station would be of great importance in forecasting the weather for Australia, South America and Western California.

Will Not Resign
Edmonton.—Premier Brathwaite told the Edmonton parliament that the cabinet has no intention of resigning or heading off the party's defeat in the election. It is learned from semi-official quarters.

TWO IS COMPANY

Edmonton.—Premier Brathwaite told the Edmonton parliament that the cabinet has no intention of resigning or heading off the party's defeat in the election. It is learned from semi-official quarters.

"At no time did I ever examine or check up on the previous records of the department in regard to the number of permits issued by my predecessors. I have no knowledge of the number of permits issued by them and I did not write to any predecessor in connection with the number of permits which had been issued."

Hon. R. J. Manion (Conservative, Port Williams), was given permission at the outset of the sitting to make a statement in respect to the casual mention of his name by Mr. Caldwell.

"I wish to state emphatically that I was never asked by the minister of immigration in July, 1923, 1 personally issued no permits to anyone and no permits were illegally or irregularly issued to anyone," Mr. Manion declared.

"In fact no permits of any kind were issued which were not wholly within the law and the regulations." Dr. Manion emphatically denied that he had communicated at any time by word or in writing to Mr. Forke regarding permits. He felt that Mr. Forke would agree with him in this statement.

File Appeals In Libel Suit

Defendant In Currie Action Claims New Evidence Discovered

Toronto.—Appeals from the verdict of the special jury at the Colborne Court last month regarding Sir Arthur Currie, commander of the Canadian corps in France, 3000 damages in his libel action against W. T. Preston and F. W. Wilson, of Port Hope, were filed recently. Mr. Preston and Mr. Wilson were not accompanied by counsel when they visited Osgoode Hall to file the appeal.

One of the chief grounds of Mr. Preston's appeal is contained in a statement that new evidence has been discovered. He claims that an order was issued to the respective units of the Canadian corps about 4:30 p.m., November 10, 1918, that operations would be concluded and hostilities cease at 11 o'clock on the morning of November 11.

Other grounds include the assertion that the judge mis-directed and mis-instructed the jury, that certain evidence was erroneously excluded, and that the judgment was contrary to the evidence.

Mr. Preston and Mr. Wilson filed separate notices of appeal.

Staff Is Kept Busy

Requests For Returns By House Members Are Numerous

Ottawa.—Returns requested by members of the House of Commons are so numerous and voluminous that some of the government's departments are having difficulty in keeping pace with the demand.

The House was visited in the House of Commons by Hon. J. A. Robb, Minister of Finance, Mr. Robb informed the members that government departments are having difficulty in keeping pace with the demand. REQUESTS MADE FOR INCREASED TARIFF ON SUGAR

Ottawa.—For the second time the application of the Dominion Sugar Company, of Chatham, Ont., for an increase of the tariff on refined sugar was before the tariff advisory board.

The application is being heard in conjunction with a request from W. M. Thrasher, Saskatoon, for downward revision of the tariff on sugar. Mr. Thrasher also asks for the abolition of the Dutch subsidy.

On behalf of the Dominion Sugar Company, A. V. McIntyre stated there was a loss of 7 per cent.

Chairman W. H. Moore questioned A. W. Stewart, of the St. Lawrence Sugar Refining Company, supporting the Dominion Sugar Company's application, as to what was the cost of sugar refining in Canada. Mr. Stewart said that this information could be obtained. Chairman Moore thought, however, that as similar data was obtainable in the United States, it should be obtainable in Canada.

Mr. McIntyre asked the board to grant protection of one cent per pound on refined sugar to put the industry on a sound basis. This protection, continued Mr. McIntyre, would ensure a substantial increase in Canadian production of refined sugar. Canadian sugar beets. Farmers would also, he declared, be ensured a fair price.

Mr. McIntyre asked the board to grant protection of one cent per pound on refined sugar to put the industry on a sound basis. GRAND THEATRE

Saturday, May 20th

Karl Dane and Geo. K. Arthur in
"BABY MINE"

How little they knew of soldiering, Dane and Arthur demonstrated in the 'Rookies' to a world weak from laughter.

They show that they know even less—and entertain you even more—when, as a couple of sappy college chaps, they fall heir to a couple of qualling infants, in this film riot.

The gay farce that made Broadway howl for months.

The Navy League

Alberta Division

Rev. Fred Cooke, organising secretary of the Navy League of Canada, who has been in Mirror taking up subscriptions to Canada's National Magazine of Yachting and Shipping, also donations for the Navy League of Alberta, wishes to thank the citizens for their assistance as they have subscribed about \$18 to the Alberta Division.

The Navy League of Canada assists the widows and orphans of our men of the merchant marine, as they do not receive Government assistance. The Navy League supports sailors' homes and institutes etc., in all our large Canadian ports from coast to coast, and looks after the welfare of our seamen when ashore. The Navy League also trains young men and boys and makes better Canadian citizens of them.

The Alberta division is making an urgent appeal for combined assistance of the people of Alberta for this worthy cause.

There will be no service in the United church on Sunday May 27th which is Conference Sunday. The services for June will be announced later.

The local Orange lodge met Wednesday last in the town hall with a large attendance. Mr. White, field secretary being present. Mr. Lyle gave a talk on his work in connection with the church. Deputy Grand Master Louth gave an outline of the connection of the Orange Lodge with the church. Worshipful Grand Master Dahl of Bashaw, gave an interesting address, and also extended an invitation to visiting brothers to the Bashaw lodge. A. L. Smith, Past Grand Master, rendered a very able address on Protestantism in New Zealand, from which place he has just left. After a very much appreciated talk by Mr. White, a lunch was served. At the close of the meeting the scarlet degree was taken in which three members were initiated. Joe Hueman was initiated into the blue degree. The meeting was brought to a close in the early hours.

A baseball game between the junior school teams of Mirror and Bashaw on Monday night at the local school diamond. A fair crowd was present and the youngsters made a good showing, which resulted in a score, 12-14 in favor of Mirror.

The Mirror garage delivered a new Paige, north of Bashaw.

The W. A. of St. Monica's church held their regular meeting at the home of Mrs. Fraser on Thursday, the 17th. Mrs. Frances Simpson president of the W. A. Diocese was present and gave a very interesting talk.

Wedding bells will be ringing shortly.

Mr. Voigt of the Graham-Paige Motors made a business visit to The Ladie's Aid meet every second Thursday in the month. The W.I. meet every first Saturday.

There has been considerable hesitation this year, in regard to the forming of a baseball team here, and the reason for this deliberation is unaccountable. A few of our more energetic citizens are very anxious that the team started, but lack the proper support of others who just simply neglect to give the matter due consideration. We have some six members of last year's team, and several others who are willing to join in; and we have a splendid site for the ball diamond. Mirror has always had a good strong team, and it would be a shame to see it fall through this year, when everything is in our favor. But it is the same old story—"let John do it", we are all subject to this malady about this time of year, but let's get busy and start the team off, now.

Some three hundred were present on the occasion of the banquet for Mr. W. A. Brown, at Edmonton, in the McDonald hotel, last Wednesday. Among those who spoke were: Supt. McDonald of the Edmonton division; W. D. Robb, Vice Pres; W. A. Kingland, General Manager, Western Division, and J. Kyle, Supt. of Motive Power and Car Equipment, who also acted as chairman.

A very interesting meeting took place in Mirror Wednesday evening last, when some fifteen of our newly arrived Holland settlers, who have been brought in by the C.P.R. Colonization Board, assembled in the library building. Matters were discussed with Mr. Van Aik the Board's representative in Holland, and Rev. A. H. Salles of Edmonton gave an interesting talk.
